SUMMARY

Senior Software Developer with 15+ years in web development and a background in embedded engineering. I have worked across the full stack — frontend (React, Vue), backend (Python, Node.js, PHP), AWS infrastructure, Linux administration and CI/CD. Current focus is Python and applied AI: LLM integrations, AI agents and locally hosted models. Former team lead and technical interviewer, now also teaching programming, which keeps my explanations clear and my fundamentals sharp.

SKILLS

Python	Django, Flask, REST APIs, TCP/IP services, automation and scripting, profiling
AI / LLM	OpenAI / ChatGPT API, AI agents and coding assistants (Claude Code, Cursor), MCP servers, running local LLMs (Gemma, Qwen, DeepSeek; GGUF quantization, multi-GPU), ComfyUI / Flux
Frontend	JavaScript (ES6+), React, Vue 3, Next.js, Web Components, HTML/CSS, React Native
Backend	Node.js, Express, NestJS, GraphQL / Apollo, WebSockets, PHP / Laravel
Data	PostgreSQL, MySQL, MongoDB, Redis
Cloud & DevOps	AWS (EC2, S3, RDS, ECS/ECR, Cognito), Docker, Docker Compose, CI/CD pipelines, Nginx, Git
Linux	Server administration, Bash, iptables, OpenVPN / WireGuard, mail servers, Proxmox VE / LXC
Testing	Cypress

EXPERIENCE

Computer Science & Programming Teacher — 2024 – Present

- Teach computer science and programming (Python).
- Translate and adapt educational programs and course materials to Python.

Freelance Software Developer — 2024 – Present

- Python projects for the education sector that use AI.
- Web development: backend, frontend, deployment and server administration.

Software Engineer · AMC Bridge, Inc. — Sep 2021 – Jul 2023

- Team lead on a Python/AWS project: built the MVP and managed computations on AWS infrastructure.
- Developer on a React / Python (Django) / AWS project.
- Developer on a Vue 3 / Python / Node.js / AWS project; built CI/CD pipelines.
- Generated HTML forms and built Web Components (custom picker, uploader, etc.).
- Ran technical interviews with 7 candidates (JavaScript/React, web server fundamentals, Node.js/Python basics).

Full Stack Web Developer · Marakas Digital — Nov 2020 – Aug 2021

- Full stack development on a React / Python (Flask) / AWS project.

Full Stack Developer · RT "Titul" — Nov 2019 – Oct 2020

- E-ticket system for public transport: built the MVP in Python (Flask).
- Managed REST and TCP/IP connections between backend and ticketing devices.

Frontend Developer · Brocoders — Dec 2017 – Oct 2019

- CRM for a food logistics system built with React and Node.js.

Freelance Web Developer — Jun 2015 – Nov 2017

- Web development for clients and own projects, including Humans of Ukraine (2016, PHP / Laravel, MySQL).

Frontend Developer · FS.UA — Jun 2013 – May 2015

- Partner advertising delivery system: user activity monitoring, widgets, scripts, dashboards, landing pages.
- Stack: JavaScript, jQuery, PHP, Python, SQL.

Frontend Developer · SVK — May 2011 – Mar 2013

- Frontend for the online MMORPG "The Book of Camelot".

Embedded Software Engineer · JSC "Sumy Frunze NPO" — Aug 2006 – Apr 2011

- Designed and programmed microcontroller firmware.
- Designed PCB/SMT circuits, test schemes and specifications.

SELECTED PROJECTS

Most commercial work is under NDA. Some personal projects:

- titar.pro — technical blog on AI, LLMs, Linux and DevOps. Self-hosted on Proxmox with Docker, Nginx and PostgreSQL.
- AI Virtual Painter — real-time hand-tracking painter: draw on a webcam feed with finger gestures. Python, OpenCV, MediaPipe.
- Altanka — city events calendar. Python (Django), AWS (EC2, S3, RDS), Telegram bot.
- Humans of Ukraine — photo stories of Ukrainian city residents. Laravel (upgraded from PHP 5.6 / Laravel 5 to PHP 8.1 / Laravel 10), MySQL, Docker.
- Komilfo.band — website for my band. React / Express / MongoDB, moving to Next.js.
- 50-lines-picture — generative art in pure JavaScript (source).

EDUCATION

Specialist, Electronic Instruments and Devices · Sumy State University — 2003 – 2006
Faculty of Applied Physics

Junior Specialist, Computer Systems and Networks · Sumy Professional College, NUFT — 1999 – 2003
Administration of computer and intelligent systems and networks

COURSES

Linux Administration — PortaOne
Python Basics — PortaOne

LANGUAGES

English — B1 (Intermediate)
Ukrainian — Native
